INTRODUCTION - MAJOR CONSTRUCTION PROJECTS

The Industrial Benefits Section of the Department of Commerce and Technology has prepared the attached project summary to assist your marketing efforts. We believe this information is the most complete list available, however, it should be noted that because of the number of sponsors, designers, and contractors involved, there may be several errors and omissions. It should also be noted that estimated values and construction dates for projects may change as projects are developed. Projects listed are those valued at more than one million dollars.

While the Industrial Benefits Section is promoting local products and services in various ways, you are strongly encouraged to contact sponsors, designers, or contractors with respect to the capabilities of your company. If we can provide assistance please write to the Industrial Benefits Section at the below address or call 453-2102.

Industrial Benefits Section
Dept. of Commerce and Technology
P.O. Box 6000, Fredericton, N. B. E3B 5H1

INTRODUCTION - PROJETS DE CONSTRUCTION IMPORTANTS

La Section des retombées industrielles du ministère du Commerce et de la Technologie a préparé le résumé de projet ci-annexé afin de vous aider dans vos efforts de commercialisation. Nous croyons que cette liste représente l'information la plus complète actuellement disponible, mais il faut toutefois noter qu' étant donné le nombre de promoteurs, de concepteurs et d'entrepreneurs concernés, on pourra y trouver un certain nombre d'erreurs et d'omissions. En outre, la valeur approximative des divers projets et les dates relatives à leur construction peuvent changer pendant les diverses phases d'élaboration. Les projets retenus dans cette liste sont ceux qui représentent plus d'un million de dollars.

Comme la Section des retombées industrielles s'efforce de promouvoir de diverses façons les produits et services locaux, nous vous encourageons fortement à entrer en contact avec les divers promoteurs, concepteurs et entrepreneurs afin de faire connaître les capacités de votre entreprise. Si vous désirez de l'aide en ce sens, n'hésitez pas à écrire à la Section des retombées industrielles à l'adresse ci-dessous ou à nous appeler en composant le 453-2102.

Section des retombées industrielles
